Removes the PERSI rate increase and changes benefit costs to reflect a 3.5% or \$250 per FTP increase in health insurance costs. However, the change in health insurance providers, from Blue Shield to Blue Cross, has created a one-time opportunity to use unexpended reserves from the previous contract. This decision unit provides for a health insurance premium reduction equal to two month's premiums for both the employer and employee. Finally, a life insurance holiday is included equal to seven month's premium for the employer's share only.
